

Introducing Oxford Iono SE Light Cure Self-Adhesive Glass Ionomer based Liner

„All-in-one
Liner“

Bonding & Lining with **Only One Material!**

Oxford Iono SE is a self-adhesive glass ionomer based liner. With the user friendly syringe and its **nice consistency**, the product is convenient to apply and makes a protective layer in the cavities. Oxford Iono SE is a self-adhesive liner, allowing a **very good seal** of the tooth surface and **excellent marginal integrity** of the composite filling. It can also be used with an adhesive increasing the safety of the seal in this case.

Features and Benefits

Features
